

CATHLEEN APPLEBEE

AGE 18/EDGEWOOD HIGH SCHOOL

Cathleen has grown into a driven and motivated young woman, dedicated to her education. Over the last two years, she has taken a full CCP course load at KSU-Ashtabula and by the end of the year, she will have earned 35 college credit hours, exceeding the average of 24 hours required to graduate high school. Due to her hard work, Cathleen will graduate next spring with a bachelor's degree in Information Technology from KSUA. She has participated in Buckeye Girls State, she is a dedicated member of the high school tennis team and in the fall of 2024, she and her tennis partner received First Team Doubles recognition for the CVC. She was also part of the school's inaugural bowling team during the 2023-2024 season.

Recently, Cathleen's grandmother passed away, and she has taken on a great deal of responsibility caring for her grandfather. Despite a rigorous academic schedule, Cathleen prioritizes her grandfather's health and well-being. Through it all, she still finds time to smile and joke, which shows her true character. When asked what means the most to you, Cathleen said, "Family means the most to me; they offer guidance, support, and unconditional love. They are my foundation and I am truly grateful for the person they have built me up to be."
